

Caniotic Kennel System

Real Cultured Canine Immunoprobiotic bulk system for Kennels and/or dog owners with over 3 dogs.

Caniotic is the only product on the market that features real cultured Canine *L. rueteri* bacteria as its featured technology. The results are impressive and unparalleled. Due to high demand from kennels, breeders and multiple dog owners we have developed a system that features up to 100 doses per bottle and lowers the cost. This is the perfect system for optimum gastrointestinal track health for your dogs!

Facts

- 1 billion CFU's minimum with every pump!
- One mixed packet is good for 14 days!
- Caniotic is the ONLY canine cultured, DNA typed bacteria immuno probiotic in the world.
- Only Caniotic uses real Canine *L. rueteri*

Advanced Species Specific Bacteria Technology

Why This is So Special!

The Caniotic Kennel System consists of a "Starter Kit" and then packets for refilling the bottle. One batch has a potent life span of 14 days and it's super easy to use!

1. Empty packet contents into bottle.

2. Fill with water up to red line (100ml). Tap water is ok.

3. Shake for 30 seconds

4. Look at chart on bottle label to determine dosage for your dogs.

5. Store in refrigerator

6. Pump appropriate number of strokes onto the dogs food.

Feeding Directions

- 2 Pumps = Small Dogs up to 20 lbs.
- 4 Pumps = Dogs 20 lbs. to 60 lbs.
- 6 Pumps = Dogs 60 lbs. and Larger

Starter Kit, #CKS-1

Bottle with pump, Laminated label for recording data. Two 100 dose packets.

Refill Kit, #CKR-1

Two 100 dose packets
